A 20x20 grid puzzle. The grid is labeled A-T on both the top and bottom. The puzzle consists of numbered circles (1-178) and empty cells. Some circles are black with white numbers, and others are white with black numbers. The numbers are distributed across the grid, with some clusters and some isolated cells. The puzzle is a logic puzzle where the goal is to determine the correct placement of the numbered circles based on the given clues.
